

Always
Evolving

A photograph of a man with a beard and short hair, wearing a light blue button-down shirt, sitting at a desk in a server room. He is looking down at a laptop computer. The room is filled with tall server racks. The lighting is low, with blue light reflecting off the metal surfaces of the racks. Red triangular shapes are positioned on the left and right edges of the image.

Agile Defense Corporate Sustainability Disclosure

Agile Defense is committed to driving green and sustainable practices at our corporate headquarters and client-side locations world-wide. In addition to these environmental practices, we support community outreach and causes our employees are passionate about. Located only .25 miles away from the Wiehle-Reston East Metro Station and .7 miles away from the Washington & Old Dominion (W&OD Trail), the Agile Defense corporate headquarters is conveniently available via metro, bus, and by bike allowing for environmentally friendly modes of travel to and from our offices. The corporate headquarters building also boasts Green Living Initiatives to include LED bulbs in common areas, energy star-rated air conditioners and refrigerators, natural gas usage, and insulation of hot water and steam pipes to reduce fuel consumption. All throughout our office facility, recycling and waste areas are clearly marked to ensure proper disposal of litter. In addition, our office management offers reusable mugs and insulated, reusable water bottles for consumption of coffee, tea, and/or filtered water. On contract sites, we empower our employees to make environmentally friendly recommendations and process improvements to our clients that help minimize the client's carbon footprint, such as digitizing forms, minimizing vehicle usage, installing approved green technologies for their data centers, and much more.

Adopt-A-Highway

In 2017, Agile Defense joined the Virginia Department of Transportation (VDOT) Adopt-A-Highway program, helping preserve the beauty of Fairfax County. We “adopted” the mile-long stretch of Sunrise Valley Drive just outside our corporate headquarters in Reston, VA. Through this program, we commit to performing at least two trash pick-ups each year. During these pickups, we have rid Sunrise Valley Drive of more than 20 bags of trash, and we look forward to continuing the tradition!

The Virginia Adopt-A-Highway program began in 1988 and is one of the largest programs in the country. Adopt-A-Highway volunteers clean nearly 12,000 miles of highway each year, more than 20 percent of Virginia's state-maintained roads. Our efforts make a real difference in our environmental footprint and help raise awareness to passing motorists
